**FRUIT, VEGETABLES  
AND CONDIMENTS STATISTICS  
OF PAKISTAN  
2021-22**

**GOVERNMENT OF PAKISTAN  
MINISTRY OF NATIONAL FOOD SECURITY & RESEARCH  
ISLAMABAD  
ECONOMIC WING  
MARCH 2023**

## **MESSAGE**

Horticulture sector has the prime importance in Pakistan Agriculture Industry. The horticulture sector is not only producing fruit and vegetables for local consumption but also earning a handsome amount of foreign exchange through export of fruits and vegetables produced in Pakistan. Present Government has accorded high priority to the development of agriculture to play a vital role in boosting national economy and ensuring food and nutritional security. The emphasis is also given to agriculture, livestock, research and development priorities with a focus on nutrient dense foods such as fruits, vegetables, legumes and animal source foods. Fruit, Vegetables and Condiments Statistics of Pakistan 2021-22 is valuable addition in the Ministry's Publications.

**Chaudhary Tariq Bashir Cheema**  
Minister for National Food Security and Research (NFS&R)

March, 2023

## **MESSAGE**

Agriculture is lifeline of Pakistan's economy. About 37.4% of population is engaged in farming directly or indirectly. Pakistan has a great potential for horticulture due to the variety in land and climate which provide rich opportunity for the production of a wide range of horticulture crops. This publication includes fruit, vegetables and floriculture commodities produced in the country and a viable, profitable horticulture sector can provide a sustainable livelihood to the rural agriculture commodity.

I appreciate the officers and staff of Economic Wing and also those who participated in collection and compilation of data and provincial Crop Reporting Service centers (CRS).

Suggestions are always welcome to make better this publication in future.

**Mr. Zafar Hasan**  
Secretary  
Ministry of National Food Security and Research

March, 2023

## **FOREWORD**

Food Security and economic development of the country predominantly hinges upon the agriculture sector. Horticulture in Pakistan has emerged as an important sector contributing to the national agricultural GDP's share and produce large number of horticultural products to fulfill domestic demand of fruit and vegetables for ever increasing population. The demand for fruits and vegetables is continuously increasing in local and export markets. Pakistan is a major producer of fruits and vegetables and around 29 types of fruits and 33 types of vegetables are produced in the country throughout the year.

However, most of the production is consumed in domestic markets. Production of citrus, mango, apple, melons, dates, guava, and apricot reflect strong domestic market demand for horticulture crops. Citrus fruit, primarily the mandarin variety. The highest productions have reached i.e Citrus fruit & Mango 2.4 and 1.6 million tons, the largest fruit crop group by volume and are major export revenue earner. According to latest figures Pakistan exported **622.1 thousand ton of fruit and vegetables 939.7 thousand ton** in FY 2021-22.

Suggestions for improvement of the publication involved in data collection and compilation of **“Fruit, Vegetables and Condiments Statistics of Pakistan, 2021-22”** will be welcomed.

**(Dr. Haroon Sarwar Awan)**  
Economic Consultant

March, 2023
